Section I: Welcome to Marketplace!

A. Why Marketplace?
The Office of the Bursar in conjunction with Information Technology Systems has determined it necessary to reduce the University’s PCI scope. One way to do so is to consolidate the number of third party systems used in credit card processing across the University. TouchNet Marketplace utilizes the TouchNet Payment Gateway, which can be used by both smaller departments with low volume credit card payments via a uStore as well as larger departments using a TouchNet Ready Partner via uPay. The ultimate goal is to reduce the number of individual merchant accounts open at the University as well as streamline the third party vendors used for credit card processing.

Once logged into TouchNet, navigate to the Marketplace Operations Center:
Applications → Marketplace

B. TouchNet Ready Partners
TouchNet has created a relationship with various common campus vendors which allows integration between the vendors and Marketplace. TouchNet is used as the payment gateway (replacing other options such as PayPal or Authorize.net) with transactions flowing through Marketplace. This not only streamlines credit card payment processing across the University, but it also allows departments to use a third party vendor without needing their own merchant account. This manual covers only uPay used for TouchNet Ready Partners.

Current TouchNet Ready Partners can be found here:
C. uPay vs. uStore

TouchNet Ready Partners link into Marketplace via uPay. With uPay, information is collected by the TouchNet Ready Partner system and Marketplace acts only as the payment gateway. Marketplace also offers uStores. A uStore is intended for departments who wish to accept credit card payments for products/services/events and require basic collection of information. Departments may use uPay for their Touchnet Ready Partner, but also have a need to open a uStore to accept payments that do not go through the third party vendor.

D. Fees

The University is charged processing fees by our processor, Global Payments. The fees are typically 2-5% of the monthly sales. Cash Operations will receive the bill monthly from Global and calculate the department’s portion. Cash Operations will charge the department’s KFS account via a Distribution of Income and Expense edoc. For departments who have their own merchant account, this will replace the monthly bills you currently receive and pay. The fees should be comparable.

E. Marketplace uPay User Roles

There are a variety of user roles in Marketplace. Proper separation of duties should be utilized when assigning roles. Below are detailed descriptions of each role:

Site Manager: Added to Marketplace by Cash Operations
- Manage the allowed payments
- Configure the site to accept recurring payments and additional donation offerings
- Customize settings such as email announcement text, uPay page titles and text, refund policy
- Take uPay sites online or offline
- Search, cancel, and refund payments
- Review Marketplace reports

Payment Clerk: Added to Marketplace by the Site Manager
- Search, cancel, and refund payments

Accountant: Added to Marketplace by Site Manager
- View Marketplace reports

F. Administrative Responsibility

Both Cash Operations and departments have administrative responsibilities associated with Marketplace:

Cash Operations
- Primary liaison between the University and TouchNet (payment gateway and third party provider of Marketplace) as well as with Global (credit card processor)
- Collaborates with ITS to ensure PCI Compliance is achieved and maintained at the University level
- Creates initial uPay site and settings
- Add and Disable users in TouchNet and Marketplace
- Responsible for recording all Marketplace payments in KFS and paying the monthly Global bill
• Responsible for paying monthly credit card processing fees (Global and AmEx) and charging Merchants appropriately within KFS
• Primary contact for departments for all Marketplace related questions

Departments
• Responsible for ensuring PCI Compliance at the departmental level
• Oversees customizable uPay settings such as email text and return policy
• Primary contact for their customers
• Respond to any chargeback or returned payments timely
• Reconcile transactions processed in the TouchNet Ready Partner third party system to payments processed in Marketplace and to revenue recorded in KFS on at least a monthly basis

Section II: uPay Site Setup

A. Overview of Setup Process

Cash Operations will work with your department and TouchNet to implement the TouchNet Ready Partner and create the uPay site. Unless requested otherwise by the department, all setup will be done in production only. The following is the general overview of the setup process:

1. If the TouchNet Ready Partner has not yet been implemented with Marketplace, Cash Operations will submit a request with TouchNet to implement. If the Partner has already been added, then the department will need to reach out to their vendor to make them aware that they are switching payment gateways and continue to Step 3.
2. TouchNet will send Cash Operations a Data Gathering Worksheet. To complete this worksheet, the department may need to reach out to the vendor to request information including URLs to be whitelisted by TouchNet with their firewall as well as the return/error/cancel URLs. The completed worksheet needs to be sent to the vendor and TouchNet.
3. Cash Operations will create the initial uPay site and required settings. Note: Cash Operations will need to enter the KFS account and object code during the initial setup. All payments must go to a single KFS account and object code. If funds need to go to multiple accounts, then we suggest setting up the uPay site with a clearing account and periodically submitting a DI to move the funds accordingly in KFS.
4. The department will configure allowed customizable fields such as: Email text and signature, name of uPay site, and the return policy. See Section B below for more detail.
5. Department will need to communicate information to the vendor so setup can be completed on their end. Information likely will include uPay Site ID and T-Link.
6. Once setup is completed on the TouchNet Ready Partner’s end, a $1.00 test transaction should be initiated to confirm setup is working as expected. Be sure you have set the site status to Enable!
7. When ready, Cash Operations will work with Global Payments to close the departments existing merchant account(s) if applicable.
B. Customizable Fields

Although Cash Operations will configure the uPay sites with many of the fields that must remain static, there are some fields that the department can customize. If you are unsure if a certain field can be changed or customized, please ask Cash Operations.

Payment Settings

Most of the settings on this page cannot be changed. However, you can customize Optional Prompts. Marketplace can collect some additional information during the checkout process. Depending on what information is collected by your TouchNet Ready partner, you may or may not want these options to be shown to the customer. If you choose to have this information collected by marketplace, responses will be available in various Marketplace Reports as well as searchable within Marketplace Payment Search.

<table>
<thead>
<tr>
<th>Optional Prompts</th>
<th>Required?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show email address prompt:</td>
<td>☑ Yes ☐ No</td>
</tr>
<tr>
<td>Show day phone prompt:</td>
<td>☐ Yes ☐ No</td>
</tr>
<tr>
<td>Show night phone prompt:</td>
<td>☐ Yes ☐ No</td>
</tr>
<tr>
<td>Show mobile phone prompt:</td>
<td>☐ Yes ☐ No</td>
</tr>
</tbody>
</table>

Messages & Titles

This screen allows you to customize the page names that appear in the customer’s browser title bar and the messages that the user sees at the top of the uPay pages. Below are the applicable fields:

Payment Method Selection

- Page Title: Payment Method Selection
- Payment Method Selection Message: Please select a payment method and enter an amount

Credit Card

- Payment Info Page Title: Enter Payment Information
- Credit Card Payment Info Message: Please enter your credit card information
- Verification Page Title: Verify Your Payment Information
- Credit Card Payment Verification Message: Please verify your payment information

If allowing for Additional Donation option:

Additional Donation Pages

- Page Title: Additional Donation Options
- Additional Donation Message: Select or enter the amount of your donation.
**Form Parameters**

The TouchNet Ready Partner passes certain parameters to the uPay site when sending the customer to submit payment. Typically, three parameters are setup: UPAY SITE_ID, TICKET NAME, and TICKET. (This is just the name of the parameter fields and may not be a true “ticket name”). However, some TouchNet Ready Partners may be able to send additional parameters that will appear in various Marketplace reports. The department can add these additional parameters here by clicking “Add new”. Note: It is important that you enter the parameter name exactly how the TouchNet Ready Partner sends it through.

**Display Name Settings**

<table>
<thead>
<tr>
<th>Parameter Name (Required)</th>
<th>Display Name (Optional)</th>
<th>Display in Reports/Searches</th>
<th>Sort Key</th>
<th>Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

No parameters have been defined for the uPay site.

**Miscellaneous**

Here, you can change the Site Status, enter a customized Site Offline Message (message customer will see in the rare occurrence that the uPay site is down), the Site Name, and the Site Email Address.

**General Settings**

- Site Id: 1
- Site Status: Disabled
- Mobile Status: Disabled
- Site Offline Message: This site is currently unavailable.
- Site Name: Graduate School
- Site Email Address: gradschool@uconn.edu

You can also decide when the customer will receive an email. Note: The TouchNet Ready Partner may send an email when the payment is submitted, however it will not notify the customer of any refunds.

**Email Settings for Payer Message**

- Send Payment Notification Email to Payer: ○ Yes ○ No
- Send Refund Notification Email to Payer: ○ Yes ○ No
- Send uPay Driven Recurring Payment Notification Email to Payer: ○ Yes ○ No
The department can enter the Return Policy if applicable.

<table>
<thead>
<tr>
<th>Return Policy Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Disabling this feature removes the return policy from the footer and the return policy text at checkout.</strong></td>
</tr>
<tr>
<td>Show Return Policy Link:</td>
</tr>
<tr>
<td>Return Policy Link Label:</td>
</tr>
<tr>
<td>Return Policy Text (50,000 chars max): (HTML Allowed)</td>
</tr>
</tbody>
</table>

The department can also elect to have Privacy, Help, and Accessibility links displayed. These links will show in the bottom of the uPay site’s navigation bar.

<table>
<thead>
<tr>
<th>Privacy Link Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show Privacy Link:</td>
</tr>
<tr>
<td>Privacy Link Label:</td>
</tr>
<tr>
<td>Privacy Link Content:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Help Link Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show Help Link:</td>
</tr>
<tr>
<td>Help Link Label:</td>
</tr>
<tr>
<td>Help Link Content:</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Accessibility Link Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td>Show Accessibility Link:</td>
</tr>
<tr>
<td>Accessibility Link Label:</td>
</tr>
<tr>
<td>Accessibility Link Content:</td>
</tr>
</tbody>
</table>
### Email Messages
The department can customize the signature text of the payment notification as well as the language used in other emails that you can elect Marketplace to send the customer (chosen on the Miscellaneous page).

<table>
<thead>
<tr>
<th>Email Settings</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Payment Notification Signature Text:</strong></td>
</tr>
<tr>
<td><strong>Notification Confirmation Announcement:</strong></td>
</tr>
<tr>
<td><strong>Refund Announcement:</strong></td>
</tr>
<tr>
<td><strong>Cancel Announcement:</strong></td>
</tr>
</tbody>
</table>

If electing to offer recurring payments, the departments can customize those emails as well.

<table>
<thead>
<tr>
<th>Email Messages Recurring</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Recurring Success Announcement:</strong></td>
</tr>
<tr>
<td><strong>Recurring Failure Announcement:</strong></td>
</tr>
<tr>
<td><strong>Recurring Error Announcement:</strong></td>
</tr>
<tr>
<td><strong>Recurring Reminder Announcement:</strong></td>
</tr>
</tbody>
</table>

Hello
This is an automated message to inform you that your scheduled payment has been completed successfully. Payment details are listed below. Please note that all payments are subject to approval and final verification.

Hello
This is an automated message to inform you that your scheduled payment did not successfully complete. Error details are listed below. Please contact us if you have questions about this e-mail or the payment referenced below.

Hello
This is an automated message to inform you a scheduled payment did not successfully complete. Error details are listed below.

Hello
This message is a reminder that you have scheduled a recurring payment for the date listed below. Please see the Payment Details section of this message for additional information about the payment.

Thank you for scheduling recurring payments!
Recurring Settings
The department can elect to allow the customer to setup recurring payments. Settings related to recurring payments are here.

**Recurring Settings**

<table>
<thead>
<tr>
<th>Allow Recurring Payments</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prompt Displayed to User Asking if Recurring Payments are Desired</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Allow Recurring Payments with no end date (Credit Card payments will still be limited to expiration date)</td>
<td>Yes</td>
<td>No</td>
</tr>
<tr>
<td>Maximum Duration:</td>
<td>[Select Unit(s)] (99 years max)</td>
<td></td>
</tr>
</tbody>
</table>

**Accepted Frequencies:**

- Daily
- Weekly
- Monthly
- Bi-Monthly
- Quarterly
- Semi-Annually
- Annually

**Recurring Donation Reminders:**

- Yes | No |
- [days] before recurring donation date

**Contact Information for Users who Create Recurring Payments:**

- Name:
- E-Mail Address:
- Phone Number: (Example: 123-456-7890)

Additional Donation
The department can setup a prompt to be displayed to the customer during the checkout process, asking if the customer would like to make an additional donation. Settings related to additional donation are here.

**Additional Donation Settings**

<table>
<thead>
<tr>
<th>Add an additional opt-in in the payment process to request a one-time donation?</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
<tbody>
<tr>
<td>Donation name:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Prompt for a one-time donation:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Description (30,000 characters max) (HTML allowed):</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Set up one or more amounts from which the buyer may choose to purchase. User entered amount allows the buyer to determine the purchase amount.

- Donation amount:
- Donation Amounts
  - [ ] User entered amount
  - Minimum user entered amount: [ ]
  - [ ]

To override the default account code, select a value in the Account Code Override drop-down.

**Accounting Code Override:**

- Name:

**Image Management for Additional Donations**

- Next amount is using an image with recommended size of 375 x 375 pixels.
- No Images

Section III: Payment Search

A. How to Search for a Payment
Navigating to the Payment Search screen. Here, there are several fields that you can search. Note: Fields such as phone number and email will only be searchable if you elected to have them be prompted to the customer under the Payment Screen → Option Prompts. Enter the information you have and click Run Search. All payments meeting the search criteria will show. You can view all details by clicking on the System Tracking ID.

B. Refunding a Customer
To refund a customer, first find the original payment by following the Payment Search instructions above. Once you locate the payment, click into the System Tracking ID. Confirm that the completed payment has a Status of “Success”. Then, click “Refund” under Action.

Enter the Refund Amount and click Submit to finalize the refund.
Section IV: Marketplace Reports for uPay Sites

Below are the various reports available in Marketplace. They will be helpful in reconciling the transactions made in the TouchNet Ready partner system as well as reconciling KFS.

Revenue
Used to pull all payments received in a specific date range. Note: Recurring payments appear as revenue on the day the payments are processed. For example, if a recurring payment is set for December 1, the payment will be displayed as revenue on December 1.
Enter the date range, determine the number of rows you want to show on each page, and click View. The report can be Exported to CSV.

uPay Revenue Report

<table>
<thead>
<tr>
<th>Site ID</th>
<th>Site Name</th>
<th>Credit Card Transactions</th>
<th>Total Credit Card Transactions</th>
<th>Campus Card Transactions</th>
<th>Total Campus Card Transactions</th>
<th>ACH Transactions</th>
<th>Total ACH Transactions</th>
<th>Total Transactions</th>
<th>Total Revenue</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>mat's test</td>
<td>0</td>
<td>$0.00</td>
<td>0</td>
<td>$0.00</td>
<td>0</td>
<td>$0.00</td>
<td>0</td>
<td>$0.00</td>
</tr>
</tbody>
</table>

There is no data on record for the selected time period.

By Product
All payments made for a TouchNet Ready Partner system will have the same product name. Therefore, this report will be similar to the Revenue report above.
Recurring Payment

Only applicable if the department has elected to allow customers to make recurring payments. The uPay Recurring Payment Group Report contains two tables. The table at the top of the report shows totals for all recurring payments that were processed during the selected date range. The second table shows all recurring payment schedules for which payments were processed during the selected date range.

The Installments column shows the number of payments that were processed for each recurring payment schedule. For example, if this column shows "3 of 13," this means three recurring payments were processed during the selected date range, and the recurring payment schedule includes a total of 13 payments.
You can view additional information by clicking a System Tracking ID number. The uPay Recurring Payment Detail Report is then displayed for the selected System Tracking ID.

On the Recurring Payment Detail Report, you can view scheduled recurring payments by selecting a future date range that includes the scheduled payments. The Status column shows payments that have been processed ("Success") and payments that are scheduled to be processed in the future ("Not Processed"). The status of e-mail recurring payment confirmation messages is displayed (Success or Failure). You can hide the e-mail address information and contract the list of installments by selecting the Hide Detail button.
Posting Status
TouchNet Ready Partners do not use this feature.

Posted Parameters
This report displays any parameters that were configured in the uPay Form Parameters page. The payment information in this report can be exported by using the "Export to CSV" button. The posted parameters appear in new columns to the right of the other data in the CSV file. Select View Detail to see all parameter fields.
User Roles Report
This report shows a list of all assigned user roles for this uPay site—uPay site managers, payment clerk, and site accountants. The report is initially sorted by Role Name (the far left column); however, you can select the arrows in the column headers to choose a different sorting method. You can export this report in CSV format.

<table>
<thead>
